

Petition for the Creation of an Object Recovery Space in the Municipality of [Name of the Municipality]

To the attention of the Municipal Council of [Name of the Municipality],

We, the citizens of [Name of the Municipality], hereby request the creation of an object recovery space within our community. This project aims to provide a designated area where residents can drop off, pick up, or exchange items in good condition, contributing to waste reduction, resource reuse, and the promotion of a circular economy.

Why create an object recovery space?

1. **Waste reduction:** Many items that are still in good condition are thrown away each year. A recovery space would allow these items to be salvaged and given a second life, thereby reducing the amount of waste sent to landfills.
2. **Environmental commitment:** The establishment of this space would encourage more responsible resource management by promoting reuse and recycling.
3. **Community and exchange:** This project would strengthen social ties among residents by providing a platform for exchange and sharing. Items could be given away for free or at low cost to those in need.
4. **Support for local initiatives:** This space could be managed by volunteers or local associations, creating opportunities for community engagement and volunteerism.

Our request:

We request the establishment of a secure and easily accessible space where residents of [Name of the Municipality] can drop off and pick up items in good condition, such as furniture, appliances, clothing, toys, books, etc. We suggest that this space be open on a regular basis, managed by the municipality or a partner association, and that clear guidelines be provided regarding the types of items accepted.

We firmly believe that this project will have significant benefits for our community, both environmentally, socially, and economically. We thank you for your attention and hope that this initiative will come to fruition in the near future.
